

Advanced Hand Seminar

June 19, 2018

Jasper, AB, Canada

Chairperson: Paul Binhammer, MSc, MD, FRCSC

This course is designed to allow you to interact with faculty to maximize your ability to care for patients with challenging hand fractures. Participants will systematically analyze hand fractures, complications and complex trauma, discuss treatment plans and outcomes in small group discussions with hand experts. You are welcome to bring cases to the small group to problem solve and look for options.

Registration and Information:

aona.org/handjasper

Activity will be certified for continuing medical education credit.
Course subject to modification.
