

Plastics Position at Joseph Brant Hospital

Join the Department of Surgery, Section of Plastics as a member of the Associate Staff, at Joseph Brant Hospital. Joseph Brant Hospital is a busy community hospital servicing the city of Burlington with a population of 175,000. The Hospital is currently undergoing a significant redevelopment with the building of a new patient tower with nine new operating rooms, Emergency Department, Ambulatory Care including Fracture Clinic and ICU scheduled to open on August 21st. The Surgery Program performs approximately 11,000 surgical operations each year. Plastics is one component of our comprehensive surgical program including vascular, gynaecology, orthopaedics, urology, ophthalmology, otolaryngology, general surgery and dental.

The incumbent will have equitable access to operating room time allocated to the section of Plastics with an expectation of equitable call responsibilities. This is a community based position involving the breadth of general plastic surgery practice but an interest in hand or breast reconstruction would be an asset.

Collegiality and the ability to provide an excellent patient experience is essential. As a community campus of McMaster University, candidates will be expected to participate in a teaching commitment and to seek an appropriate appointment to McMaster University. Registration with (or eligibility for) the College of Physicians and Surgeons of Ontario and fellowship with the Royal College of Physicians and Surgeons of Canada are required. Graduating residents are encouraged to apply.

Applications will be accepted through the Chief of Staff Office at medicalaffairs@josephbranthospital.ca or (fax) 905-336-6480 or 1230 North Shore Blvd, Burlington, ON, L7S 1W7. Please submit a CV and letter of interest by June 30, 2017.
