

CAMPBELL RIVER, BC: The Division of Plastic Surgery in Campbell River, BC is seeking a long-term locum. Start time and duration are negotiable. You will participate in paid on-call coverage with six others from the North Island Plastic Surgery group which includes Nanaimo and Campbell River.

Plastic surgeons in Campbell River perform general plastic surgery including breast reconstruction, hand surgery, facial trauma, skin cancer management, microsurgery as well as cosmetic surgery. The existing hand clinic is staffed with 3 hand therapists.

Campbell River & District General Hospital is a new facility that opened in September 2017. It has 4 operating rooms, 2 plastic surgery minor surgical suits, full rehabilitation services, 95 beds and serves a referral population of 60,000. It enjoys an exceptionally collegial atmosphere amongst family physician and specialist colleagues. Hospital based specialists include: ENT, internal medicine, radiology, orthopaedic surgery, general surgery, anesthesiology, obstetrics & gynaecology, paediatrics and pathology.

Campbell River is a beautiful place to work and provides a rural subsidy of 6.09% on fee for service items. Applicants must have a fellowship in Plastic Surgery, FRCS(C), and obtain licensure with the College of Physicians and Surgeons of British Columbia.
