

Microsurgery and Oncologic Reconstruction Fellowship McMaster University

The Division of Plastic Surgery at McMaster University offers a 12 month fellowship beginning July 1st.

This fellowship is suited for a plastic surgeon with an interest in microsurgery including trauma as well as Oncologic reconstruction and is multi-sited at both St. Joseph's Healthcare Hamilton and Hamilton Health Sciences (and Juravinski Cancer Centre).

The case mix includes oncology reconstruction in breast (60-70), head and neck (45-60), extremity (10-15) and pelvic cancer patients. The trauma cases include those from the regional Level I trauma centre such as replants, peripheral nerve injuries and general reconstruction.

The number of microvascular cases would be approximately 130 flaps per year plus 30 pedicled flaps. The fellow will also participate in approximately 60-70 implant based Breast reconstruction procedures.

The fellow works with a group of reconstructive surgeons in the Division of Plastic Surgery in Hamilton as well as associate staff from Oakville, Ontario.

Salary level is equivalent to a PGY6 level in the province of Ontario and applicants must be able to obtain a license from the College of Physicians and Surgeons of Ontario (education or independent). ***Applicants must confirm with the CPSO that they have the qualifications for a license in Ontario before submitting an application.***

Applications should be sent by email including a letter of interest and curriculum vitae. Letters of reference will be requested upon review of the application. Please forward your application to the program coordinator, Jennifer Bowen (bowen@mcmaster.ca).

Questions about the fellowship should be forwarded by email to the Fellowship Director, Dr. Carolyn Levis (levisc@mcmaster.ca)
