

UBC DIVISION OF
PLASTIC SURGERY

**Re: Allergan Breast Reconstruction Fellowship
Division of Plastic Surgery, University of British Columbia**

This advanced training program is 6 months in duration and provides a large volume experience in immediate and delayed alloplastic and autologous breast reconstruction. Although a significant portion of the reconstruction is microvascular in nature, this is not a microsurgical fellowship. Rather, this is a comprehensive breast reconstructive fellowship for plastic surgeons that have completed their training and wish to develop/refine subspecialty skills in the management of breast and trunk reconstruction.

Successful completion of a Royal College or American Board certified Plastic Surgery program or equivalent.

Generous financial support is available for the 6-month duration.

Applications are now being received for upcoming positions. Please apply ~ 24 months prior to the desired date of training. Applicants are generally accepted 18-24 months prior to the January or July start date.

Fellowship starts January 2018.

Erin Brown, MD, PhD, FRCSC
Fellowship Director - UBC Plastic Surgery

Peter Lennox, MD, FRCSC
Breast Reconstruction Fellowship Director
