

## **Senior Plastic Surgeon with specialization in Hand and Wrist Surgery**

### ***Trillium Health Partners - Surgery Program***

**Description:** The Division of Plastic Surgery, Trillium Health Partners Health Partners (THP), invites applications for a **Senior Full-Time Associate Plastic Surgeon specializing in Hand and Wrist Surgery**. THP is a major provider of both acute and elective hand and wrist care in Ontario. THP's Plastic Surgery Division consists of seven Plastic Surgeons. We are affiliated with the University of Toronto Mississauga Academy of Medicine.

**Duties/Responsibilities:** The successful applicant's practice will focus on hand and wrist surgery (including distal forearm), with 90% of surgical time dedicated to upper extremity surgery. The successful candidate will also participate in the delivery of unplanned care including on-call rotation supporting THP and surrounding Hospitals, but will operate primarily at the Queensway Health Centre (150 Sherway Dr, Etobicoke, Ontario, M9C 1A5).

The successful candidate will contribute to medical education and clinical research. Candidates with a doctoral degree who have experience with basic science and/or epidemiological study management will be given precedence. Administrative and leadership experience are essential, and candidates with leadership experience in hospital administration and national / international professional societies are preferred.

Remuneration will be on a fee-for-service basis through billings submitted by the physician to the Ontario Health Insurance Plan (OHIP), estimated to be \$300,000-\$450,000 CAD per annum.

**Required Qualifications:** Applicants must hold an MD or equivalent with completed training in Plastic Surgery and must be eligible for licensure with the College of Physicians and Surgeons of Ontario. This individual must have obtained the Royal College of Physicians and Surgeons of Canada Fellowship in Plastic Surgery or equivalent and have undergone specialized training in Hand and Wrist Surgery. Orthopedic Surgery training in distal radius management is an asset. Candidates will preferably have over 15 years of consultant level clinical experience. Ideally, the applicant should have attending physician level experience with small joint replacement, including CMI, RegJoint, Swanson, PIPR and Cap Flex. The position is open to all qualified candidates; however, priority will be given to Canadian citizens and permanent residents of Canada.

The successful candidate will be appointed to an academic position within the Department of Surgery, University of Toronto. The type of academic position will be dependent upon the qualifications of the successful candidate.

**Application:** Interested applicants should arrange to have a current curriculum vitae, a letter of intent, and the names of three references forwarded to:
