

Assistant / Associate or Full Professor - Plastic Surgery Division Head - St. Michael's Hospital

The Departments of Surgery at St. Michael's Hospital and the University of Toronto invites applications for the position of Division Head, Division of Plastic Surgery. The effective date of this appointment is tentatively June 1st, 2024 and can be flexible.

We seek a dynamic surgeon, with record of success as leader. The successful candidate will have the capacity to work effectively in teams through collaboration rather than competition, is process and outcome driven and works actively to build consensus. The successful candidate will work to achieve clinical excellence and academic productivity within the Division. They will foster a supportive educational climate and collegiality within the Division, Department and across Unity Health. A high degree of professionalism is a key feature of the Department of Surgery at St. Michael's Hospital and the Division Head is expected to promote and advance this culture. Evidence of excellence in teaching and scholarship is a requirement.

The candidate must be eligible for appointment at the rank of Assistant / Associate or Full Professor at the University of Toronto and for certification with the Royal College of Physicians and Surgeons of Canada, and licensure with the College of Physicians and Surgeons of Ontario.

Unity Health Toronto is a Catholic health organization that provides compassionate physical, emotional and spiritual care to all in need. We advance excellence in health care through world-class education, research and innovation. Our hospital partners are St. Michael's Hospital, St. Joseph's Hospital and Providence Health.

St. Michael's Hospital, is a fully affiliated academic health center highly interconnected with University of Toronto, and an international reputation in research and education.

The Division of Plastic Surgery is comprised of five academic surgeons, who have clinical expertise in upper extremity and peripheral nerve surgery, craniofacial surgery, and breast reconstruction. They are heavily involved in trauma reconstruction, including the entire spectrum of plastic surgery care. The division has a strong academic interest in education and simulation, including augmented reality applications in education.

The Division of Plastic Surgery works collaboratively with numerous other specialties and provides support in trauma and reconstruction to the Division of Orthopedic Surgery, Neurosurgery and General surgery, and is a critical component of the multidisciplinary care provided at our busy regional level-1 trauma program. The broad expertise of the division serves a wide breadth of cases, complexity of care and acuity at St. Michael's Hospital.

Qualified applicants are asked to submit applications to:

Maricelle Bronilla
Executive Assistant, to Surgeon-in-Chief
St. Michael's Hospital
Maricelle.Bronilla@unityhealth.to
