

FELLOWSHIP

Peripheral Nerve and Hand Surgery Fellowship

Sunnybrook Health Sciences Centre

Sunnybrook Health Sciences Centre is offering a one-year Peripheral Nerve and Hand Surgery Fellowship beginning the summer of 2026.

The education objectives are to:

1. enhance the clinical expertise in evaluation and management of patients presenting with complex upper and lower nerve problems including peripheral nerve, brachial plexus injuries, and spinal cord injury
2. expand the technical skills related to repair and reconstruction for peripheral nerve, brachial plexus injuries, spinal cord injury. These skills include nerve repair, nerve transfer, nerve grafting, nerve decompression, arthrodesis, and tendon/free muscle transfer
3. enhance the clinical expertise in evaluation and management of patients presenting with acute traumatic and acquired hand problems, both common and complex related to arthritis, post traumatic and other causes
4. collaborate in multidisciplinary teams to evaluate and provide comprehensive care for patients with complex peripheral nerve problems

For more information contact Dr. Dengler or Dr. Binhammer.

Interested applicants should send a letter of interest, CV and 3 references to Drs. Dengler and Binhammer by **February 1, 2025**.
