

## **Academic Plastic Surgeon with Hand Surgery Fellowship Dalhousie University and Nova Scotia Health Authority**

The Division of Plastic Surgery at Dalhousie University is seeking to hire a full time academic Plastic Surgeon. This position will have its clinical base at the Queen Elizabeth II Health Sciences Centres in Halifax, Nova Scotia. The QEII HSC is the tertiary and quaternary care referral centre for approximately two million people in the Atlantic Provinces of Nova Scotia, New Brunswick, Prince Edward Island and Newfoundland.

The successful candidate will join a dynamic and collegial group of academic surgeons and will play an important role in the plastic surgery residency training program. They must demonstrate the potential for academic excellence. An active role in academics- research, education or administration- is required and incentivized.

This practice will include a significant amount of basic and advanced hand and wrist surgery, in addition to contributing to the care of the usual spectrum of plastic surgery patients. Additional interest in craniofacial trauma and burn care would be an asset. Fellowship training in hand surgery is necessary. The candidate must be eligible for licensure in Nova Scotia. Remuneration is based on a competitive alternate funding plan. The position start date is flexible. Applications will be accepted until August 5, 2025.

The Department of Surgery is committed to fostering a collegial culture grounded in diversity and inclusiveness. The Department of Surgery encourages applications from Aboriginal people, persons with a disability, racially visible persons, women, and all candidates who would contribute to the diversity of our community.

A letter of application, accompanied by a CV and names of three referees should be sent to:
