

MICROSURGERY AND ONCOLOGIC RECONSTRUCTION FELLOWSHIP

The Division of Plastic Surgery at McMaster University is accepting applications for a 12-month Microsurgery & Breast Reconstruction Fellowship beginning July 1st, 2026.

The multi-sited fellowship offers extensive exposure to microvascular and implant-based breast reconstruction, free and pedicled flap reconstruction of the extremities, abdomen and perineum. Exposure to H&N reconstruction (~30-50 flaps/yr) may be accommodated per fellow's interest.

Hamilton Health Sciences is a level 1 Trauma Center. Fellows can expect additional microsurgical exposure including replants and peripheral nerve injuries.

The number of microvascular cases should exceed 100 free flaps. The fellow will also participate in approximately 150+ implant-based breast reconstruction procedures.

The fellow works with a group of reconstructive surgeons in the Division of Plastic Surgery at Hamilton Health Sciences and St-Joseph's Healthcare.

Salary level is equivalent to a PGY6 level in the province of Ontario and applicants must be able to obtain a license from the College of Physicians and Surgeons of Ontario (education or independent).

Applications should be sent by email including a letter of interest and curriculum vitae. Letters of reference will be requested upon review of the application. Please forward your application to the program coordinator, Jennifer Koch (plasted@mcmaster.ca). Deadline for application submission is November 21, 2025.

Questions about the fellowship should be forwarded by email to the Fellowship Director, Dr. Ronen Avram (avramr@mcmaster.ca).
