

Plastic Surgeon Associate Opportunity – Aesthetic Breast & Body Focus

FORM FACE & BODY | Toronto, Ontario

FORM FACE & BODY is a growing, physician-led group plastic surgery practice in mid-town Toronto seeking a Plastic Surgeon Associate to join our team. We are looking for a motivated, collegial surgeon with a particular interest in breast and body surgery who is excited by the opportunity to practice aesthetic surgery within a truly integrated health, wellness, and longevity-focused environment.

About Our Facility & Practice Model

The successful candidate will practice within our unique, 22,000 sqft purpose-built multidisciplinary facility at Yonge and Eglinton in Toronto that brings together:

- Reconstructive and Aesthetic Surgery
- Wellness and Longevity Medicine
- Women's Health
- Men's Health
- Medical Skin Care and Non-surgical body/skin procedures
- Hair Preservation and Restoration Medicine

This integrated model is designed around the concept of whole-person care, recognizing that aesthetic surgery is most impactful when aligned with metabolic health, hormonal balance, skin quality, hair health, and long-term wellness strategies.

Our surgeons work alongside a diverse team of physicians and allied health professionals, allowing for cross-referral, collaborative care, and longitudinal patient relationships. The Plastic Surgeon Associate will be fully embedded within this ecosystem, benefiting from shared patients, shared expertise, and a practice environment that supports both surgical excellence and innovation.

The Opportunity

This role is ideal for a surgeon who:

- Has a strong interest in breast and body contouring surgery
- Values high-quality aesthetic outcomes and long-term patient engagement
- Is curious about or experienced in integrating aesthetic surgery with wellness and longevity medicine
- Enjoys working in a collaborative, multidisciplinary setting
- Is interested in contributing to the evolution of a modern, patient-centric practice model

Scope of Practice

- Breast surgery (cosmetic focus; reconstructive experience considered an asset)
- Body contouring procedures, including post-weight loss surgery
- Collaboration with wellness, longevity, skin care, and hair restoration programs
- Opportunity to develop a focused clinical niche within a supportive group structure

Candidate Qualifications

- Royal College certified Plastic Surgeon
- Eligible for licensure and independent practice in Ontario
- Excellent communication and interpersonal skills
- Commitment to high standards of patient care and professionalism
- Interest in innovation, collaboration, and practice growth

What We Offer

- Practice within a distinctive, multidisciplinary health and aesthetics facility
- Established referral base and strong brand presence
- Fully staffed clinic with experienced nursing, administrative, and marketing support
- State of the art clinical and operating environments
- Competitive and transparent compensation structure
- Opportunities for long-term growth, leadership, and program development
- Collegial culture emphasizing collaboration, quality, and sustainability
