CANADIAN SOCIETY OF
PLASTIC SURGEONS

2027 EXHIBITOR PROSPECTUS

Presented by :

Canadian Society of
Plasitc Surgeons

ABOUT US

Founded in 1947, the Canadian Society of Plastic Surgeons (CSPS) represents nearly 500 highly trained specialists dedicated to advancing plastic surgery across Canada. Our members provide a full spectrum of care, including both reconstructive and cosmetic procedures for adults and children, such as cleft lip and palate repair and the correction of congenital and acquired conditions.

In addition to enhancing patient outcomes through high standards of practice, CSPS members perform essential reconstructive surgeries, including breast reconstruction, facial and hand procedures, while many also contribute their expertise through international volunteer work.

CSPS is committed to education, innovation, and the continuous advancement of surgical techniques, while also supporting its members and providing Canadians with trusted, accessible information about their care options.

Support Excellence in Plastic Surgery

Dear Sponsor/Exhibitor,

We are pleased to invite you to sponsor or exhibit at the 80th Annual Meeting of the Canadian Society for Plastic Surgeons (CSPS), taking place June 1–5 at Le Centre Sheraton Montréal, Montréal, QC.

This milestone gathering brings together plastic surgeons, reconstructive specialists, and industry leaders from across Canada for focused scientific exchange, hands-on learning, and peer networking. It is one of the few annual forums dedicated exclusively to the advancement of plastic surgery in Canada.

As a sponsor or exhibitor, you will have direct access to this engaged community of decision-makers and clinical practitioners — with packages designed to align with your specific marketing and outreach goals.

We invite you to review our sponsorship and exhibition prospectus for available opportunities, and we hope to welcome you to Montréal in June.

Warm regards,
2027 CSPS Annual Meeting Planning Committee
