

EDUCATIONAL FOUNDATION GRANT RECIPIENTS

2026	Kevin Zuo	Evaluation of Oral Health Function in Patients with Facial Paralysis.
2025	Hedi Zhao	Evaluation of a Canadian Breast Implant Registry: A Pilot Study
2024	Thomas Cawthorn	Evaluating long-term impacts and sustainability of clinical care pathways for pediatric cleft palate and alveolar bone grafting surgery palate
2023	Lucas Gallo	Developing a new patient-reported outcome instrument for children with congenital and acquired differences of the hands and upper limb (LIMG-Q Kids Arms)
2023	Emma Avery	Ambulatory surgical care for Nishnawbe Aski Nation (NAN)
2022	Marion Aribert	Effectiveness of indications for patient transfers to a single specialized center for upper limb reimplantation, draining a vast geographical area
2022	Lucas Gallo	Closed incision negative pressure therapy following autologous abdominal tissue breast
2021	Connor McGuire	The use of polyethylene glycol to improve sensation following digital nerve laceration: A reconstruction: A pilot randomized control trial
2021	Anna Duncan	N-acetylcysteine supplementation in addition to night splinting for treatment of mild to moderate carpal tunnel syndrome: A randomized, double-blind, placebo-controlled trial.
2020	Kevin Zuo	Evaluation of long-term surgical outcomes and quality of life after facial reanimation in pediatric facial paralysis.
2020	Jana Dengler	Utilization of reconstructive surgery to improve upper limb function in cervical spinal cord injury in Canada
2019	Kristen Davidge	Etiology of pain in children with brachial plexus birth injury
2018	Rebecca Hartley	Pediatric hand fractures requiring specialist referral - Derivation and validation of a clinical prediction rule
2017	Heather Baltzer	Trapeziometacarpal osteoarthritis biomarker profile: A translational study for correlating biomarker expression to osteoarthritis phenotype
2017	Helene Retrouvey	Understanding and reducing barriers to postmastectomy breast reconstruction in Ontario
2016	Kirsty Boyd	Nerve transfers to restore hand function in tetraplegia: A multi-centre, multi-disciplinary pilot study
2016	Natalia Ziolkowski	SCAR-Q KIDS: Developing a patient-reported outcome instrument for the pediatric surgical, burn and traumatic scar populations
2015	Chris Doherty	Reverse end-to-side anterior interosseous nerve to ulnar nerve transfer for severe ulnar neuropathy at the elbow
2014	Laura Snell	A novel touch-based educational tool for intraoperative training in plastic surgery
2013	Perry Gdalevitch	Effect of nitroglycerin ointment on mastectomy flap necrosis in immediate breast reconstruction: A randomized controlled trial
2012	Karen Wong	CLEFT-Q: Development of a patient-reported outcome measure for cleft lip and/or palate
2011	Achilles Thoma	A comparison of quality of life in patients undergoing partial trapeziectomy using a minimalist approach versus complete trapeziectomy with ligament reconstruction and tendon interposition: A prospective pilot study
2011	Toni Zhong	The use of transversus Abdominis plane (TAP) block in autologous breast reconstruction donor site: A randomized, double-blind, placebo-controlled trial
2010	Claire Temple	Development of the BRECON "Breast Reconstruction Satisfaction Questionnaire": Part III: Psychometric testing
2009	Oleh Antonyshyn	Results of primary orbital fracture repair: An analysis of morphological and aesthetic outcomes
2008	Ryan Neinstein	Effect of breast reduction surgery on indicators of insulin resistance: a pilot study
2007	Paul Binhammer	Injected steroids and surgery in Dupuytren's contracture
2006	Michael Bezuhly	Cost analysis and determination of waiting times for post-mastectomy breast reconstruction in Nova Scotia, 1999-2005
2005	Colleen McCarthy	Artecoll for improved nipple projection in postmastectomy patients
2004	Achilleas Thoma	Vertical scar vs inferior pedicle reduction mammoplasty: A cost-utility analysis
2003	Catherine O'Blenes	Prospective study of outcomes after reduction mammoplasty
2002	Leif Sigurdson	Development of breast reduction waiting list triage criteria
2001	Sean Rice	Is patient satisfaction altered by knowledge of their post-ablative deformity?
2000	Douglas Ross	Prospective, randomized study of patient-rated outcomes and breast sensibility following immediate neurotized vs non-neurotized
1999	Achilleas Thoma	Health utilities index and resource utilization instruments: a pilot study
1998	James Bain	McMaster University breast reduction outcome study
1997	John Semple	Breast reconstruction outcome study
1997	Christopher Forrest	The morbidity of pan-facial and Lefort facial fractures: A comparative outcome analysis
1996	Walter J. Peters	Outcome study of women after explantation of silicone-gel implants
1996	Steven Morris	Plastic surgery outcome assessment - an emerging concept
