# SAVE THE DATE!

## UBC / Asan Comprehensive Lower Extremity Reconstructive Workshop 2027

***June 23–25, 2027 · Vancouver, BC · Hosts: Erin Brown and Jp Hong***

A proven program from Seoul and Bangkok, offered in North America for the first time. Two days pair focused lectures with hands-on training and live cadaveric flap demonstrations, followed by an optional third day of participant-led cadaveric flap elevation under faculty supervision.

### Day 1 (June 23): Principles, Planning and Technique

**UBC Medical Student and Alumni Centre**

- Comprehensive and orthoplastic reconstruction, including sarcoma and the traumatized limb
- Diabetic foot and peripheral artery disease
- Vascular assessment and duplex ultrasound
- Perforator flap selection algorithm and recipient vessel selection

**Hands-on rotating stations** (every participant experiences each)

- Ultrasound workshop
- "Sewing with the Masters" microsurgery
- Introduction to ICG imaging

The day closes with tips and tricks, flap monitoring and post-op mobilization, flap revision, and Q&A.

## UBC / Asan Comprehensive Lower Extremity Reconstructive Workshop 2027

### Day 2 (June 24): Flaps, Special Problems and Demonstration

**UBC Medical Student and Alumni Centre**

- Flap options: fibula with Masquelet, ALT, SCIP, propeller, TAP and DIEP
- Nerve reconstruction, nerve and tendon transfers
- Diabetic foot reconstruction and amputation management
- Reconstructing the spastic lower extremity

**Cadaveric flap elevation demonstrations**

Faculty elevate the key flaps live, including fibula, ALT, SCIP, DIEP and MSAP, plus hyperselective neurectomies for spasticity. The day closes with case presentations and "Questions for the Masters."

### Optional Day 3 (June 25): Participant Cadaveric Flap Elevation

Held at the SIM Centre. A full day of faculty-supervised, participant-led dissection in groups of four per cadaver, with a maximum of **24 participants**.

**Why Attend**

- Lectures and hands-on training integrated in the same days
- See each flap elevated by faculty, then elevate it yourself
- Small groups and international faculty from Seoul, Bangkok and Vancouver
