UNIVERSITY OF TORONTO AESTHETIC PLASTIC SURGERY FELLOWSHIP

Number of Positions: 1

Duration: 6 months (July 2014)

Site: Toronto Institute of Aesthetic Plastic Surgery, 199 Avenue Road

Supervisor: Dr. Lawrence Tong

Educational Objectives At the end of this fellowship, the Fellow will acquire the following skills:

Cognitive:

- Demonstrate increased understanding of an anatomical approach to aesthetic surgery of the head and neck, breast and body.
- Demonstrate increased competency in the diagnosis and treatment of existing and acquired patient aesthetic concerns.
- Gain experience in the non-surgical and surgical management of patient aesthetic concerns.
- Understand the principles and management of subspecialty aesthetic surgery that may include facial rejuvenation, rhinoplasty, breast enhancement, body contouring and an array of non-surgical adjunctive treatments.

Attitudinal:

- Gain experience in approaching and attending to patient aesthetic surgical goals
- Gain experience in working with a group of other physicians, nurses and paramedical personnel.
- Learn the value of working in a cohesive, multidisciplinary team setting and appreciate the contributions of each team member.

Technical:

- Knowledge of surgical exposures of the head and neck, breast and body common to aesthetic surgery.
- Knowledge of existing and new modalities of treatment used to meet aesthetic surgical goals.
- Knowledge of various surgical techniques used to achieve patient aesthetic goals.
- Knowledge of the equipment and devices used to meet the objectives of surgical techniques in a safe and predictable fashion.
Job Description

Clinical:

- Attend daily clinical operation schedule of attending surgeons and other members of the aesthetic surgery program.
- Assist in the preoperative assessment, surgery and postoperative care of the supervisor’s and other consultants’ patients.
- Attend to primary call for clinical patient under the care of the follow and/or attending members of the aesthetic surgery program.
- Assist in the evaluation of consults referred to the fellow and other consultants.
- The fellow will have available one day per week to perform supervised clinical cases as booked by the fellow.
- Assist in the clinical teaching responsibility of the Division, including the teaching of aesthetic surgery rotation residents.
- Attend teaching seminars, rounds and other educational activities in the Division.

It is clearly understood that none of the above responsibilities will in anyway interfere with the Plastic Surgery Residency Training Program but will complement the continuous teaching of residents. Fellows will often add an international outlook on teaching.

Research:

- Complete a minimum of one clinical or basic science research project and prepare it for presentation and publication. The fellow will have one protected day per week to pursue this objective.
