THE NEWSLETTER OF THE CANADIAN SOCIETY OF PLASTIC SURGEONS

Vol. 18, No. 1

Spring 2007

## CSPS Lifetime Achievement Award will be given to Dr. Leslie Chasmar and Dr. Reid Waters

*Leslie R. Chasmar,  
MD, FRCSC*

**DR. LESLIE R. CHASMAR** grew up in Hanley, Saskatchewan with his first career in the retail and service industry interrupted by World War II.

His discharge as Flying Officer from the RCAF Air Crew resulted in a life long interest in flying.

An MDCM from McGill University in 1951 with residencies in Montreal and Toronto led to Certification in General Surgery and a Fellowship in Plastic Surgery.

He chose to start practice in Saskatoon as the only Plastic Surgeon and initiated the Royal

College program in Plastic Surgery in Saskatchewan. His trainees currently have successful practices around the world. The majority of plastic surgery services in the province today are provided by surgeons trained by Les and his colleagues.

**DR. WILLIAM REID WATERS**, was born in Regina, Saskatchewan in 1931. He graduated from McGill University in 1951 and subsequently from Medical school in 1955. It was there that he was to meet Dr. Les Chasmar whom he credits with being his inspiration to enter into Plastic Surgery. It was also here that he met, as he likes to say, "his first wife" Ruth,

who provided much support throughout his career.

Reid began his Plastic Surgery career in Winnipeg at the University of Manitoba along with two other prominent Plastic Surgeons, Drs. Des Kernahan and Lars Vistnes and with them began a training program for Plastic Surgery in 1963. He has assisted in the training of approximately 60 Plastic Surgeons. He has to his credit a number of peer reviewed publications and over 70 presentations. Dr. Waters re-

## Canadian Plastic Surgery residents eligible for ABPS Exams

IN DECEMBER 2006, Dr. **Don Lalonde**, Chair of the Royal College Plastic Surgery Specialty Committee wrote to inform Canadian Plastic Surgery Program directors and members of the RCPSC specialty committee of a decision reached by the American Board of Plastic Surgery (ABPS). The text of that letter follows.

"It is with pleasure that I am writing to inform you that on Wednesday November 7, 2006, the American Board of Plastic Surgery (ABPS) voted in favor of allowing future graduates of Canadian Plastic Surgery residencies to be eligible to sit for the American Board of Plastic Surgery written and oral (certifying) examinations and to gain certification with

ABPS, with certain provisos. The provisos are:

- 1) That the Canadian trained plastic surgeon must be a graduate of a Liaison Committee for Medical Education (LCME) approved medical school in the United States or Canada;
- 2) The Plastic Surgery residency program must be accredited by the Royal College of Physicians and Surgeons in Canada.
- 3) The resident must have entered plastic surgery residency through the Canadian Residency Match Program (CaRMS);
- 4) The plastic surgeon must hold a full and unrestricted State or Provincial license in Canada or the United States.

- 5) The plastic surgeon must have successfully attained certification in Plastic Surgery by the Royal College of Physicians and Surgeons in Canada.

The retroactive group of Plastic Surgeons who graduated from Canadian Plastic Surgery programs before 2007 may also be eligible to sit for the American Board of Plastic Surgery examinations and certification. In order to be eligible, this group must also comply with all 5 of the provisos stated above if they were accepted into a Canadian Plastic Surgery training program in or after 1993 when the

## In Memoriam

The Canadian Society of Plastic Surgeons regrets the passing in recent months of three of its most senior members.

Dr. **Norman Merkeley** passed away in November 2006 at the age of 88 years. Dr. Merkeley had been a member of the CSPS since 1949. He was a front line surgeon during World War II and put his abilities to the service of the impoverished and unfortunate on numerous medical missions over 30 years in many countries including Malaysia, Vietnam, Jordan, Afghanistan and Nepal.

Dr. **Jacques Doray** joined the CSPS in 1965. He graduated from the Université de Montréal in 1957 where he also took his postgraduate training. Dr. Doray was President of the Society in 1974. Dr. Doray died in April 2007.

Dr. **John Keyzer**, a graduate of the University of Toronto program, became a member of the Society in 1975. He retired from practice in 2005. Dr. Keyzer passed away in September 2006.

The Society's condolences go out to the families of these members whose passing is regretted by their colleagues and friends in the plastic surgery community.

## Prize-winning presentation by Dr. Martin LeBlanc

A PAPER PRESENTED by Dr. Martin Leblanc of Dalhousie University entitled *A detailed cost and efficiency analysis of performing carpal tunnel surgery in the main operating room versus the ambulatory setting* was awarded outstanding nerve paper presentation at the American Association for Hand Surgery meeting on January 12, 2007 in Puerto Rico.

The paper was prepared with research from Saint John, New Brunswick and was co-authored by Jan Lalonde and Dr. **Don Lalonde**.

As a result of this award, the paper was presented a second time in Puerto Rico at the American Society for Peripheral Nerve Surgery meeting on January 13, 2007. The paper went on to receive the award for the best resident paper at the AAHS meeting in Puerto Rico.

Congratulations to Dr. LeBlanc!

## Achievement, Dr. Chasmar, from page 1

As Clinical Professor of Surgery, Les continues to teach medical students and residents and is the recipient of teaching awards. He has been a visiting professor on courses and Resident Research Days in Canada and is recognized internationally as a teacher as far as Indonesia and Afghanistan.

He is a past President of the CSPS and a former Member of Council of the Royal College of Physicians and Surgeons.

About the time most would be acting on retirement plans he initiated the first private surgery facility in Saskatchewan and two years ago published his experience there of 2975 consecutive operations.

He continues to present at national meetings and has published as recently as this year.

He travels extensively on CME activities and is beginning to include some holidays between work, CME, teaching and business.

Les continues as a mentor, a friend, a consultant and business associate and an ongoing stimulus to excellence.

The lifetime achievement award honors CSPS members for teaching, research, innovation and service and we congratulate Les Chasmar on this recognition.

## Achievement, Dr. Waters, from page 1

tired from active practice as Associate Professor in the Section of Plastic Surgery at the University of Manitoba in 2005.

During his career, he was actively involved in provincial, national and international societies. These include American College of Surgeons, ASPS, AAPS, ASAPS and of course the Canadian Society of Plastic Surgeons, where he was local arrangements host of the 1975 meeting, Secretary - Treasurer in 1976-79 and President in 1980-81.

Perhaps one of his greatest assets was his ability to see important trends in Plastic Surgery. Dr. Waters was instrumental in founding the Western Surgery Center approx 25 years ago. This was the first private surgical center in Manitoba and one of the first in the country. Arguably, his most important contribution to the Society was to be the founding President of the Educational Foundation of CSPS from 1982-86. The important role that the Educational Foundation has come to take within the CSPS may not have been foreseeable but the Canadian plastic surgery community is grateful to Dr. Waters for this important initiative.

Dr. W. Reid Waters is a Plastic Surgeon who has always cared for his family, his patients, and his specialty.

## ABPS, from page 1

CaRMS matching service was instituted. For those who were accepted into a Canadian Plastic Surgery training program before 1993, the CaRMS proviso does not apply. The retroactive plastic surgeon may be required to be reviewed by the ABPS Credentials and Requirements Committee. In addition, the retroactive group will be required to satisfy the Professionalism Requirements of the Maintenance of Certification Program in Plastic Surgery (MOC-PS) during the application process prior to taking the examinations in addition to having satisfied the above provisos.

The Professionalism requirements include:

- 1) Unrestricted state or province medical license;
- 2) Verification of active Hospital privileges in plastic surgery;
- 3) Three Peer Review Forms (one must be from a Chief of Surgery or Chief of Staff);
- 4) Membership in one of the 20 Sponsoring Organizations of the Board (CSPS membership is one of the 20 organizations);
- 5) Accreditation Certificate from Outpatient Surgical Facilities if applicable.

It is important to note that those who take the ABPS exams and get their ABPS certification must continue with the Maintenance of Certification (MOC-PS) process in order to keep their certification valid. MOC-PS means that they must complete professionalism, education and practice performance modules every three years and an examination every 10 years.

For those who are interested, further details will become available in January 2007 from the ABPS website at [www.abplsurg.org](http://www.abplsurg.org) or you can contact Jennifer Wise at [info@abplsurg.org](mailto:info@abplsurg.org). The first step is completion of a Residency Registration/Evaluation Form which is available on the Boards website."

## Thank you....

CSPS News wishes to thank Dr. **James Zondervan** for his contribution about Dr. Les Chasmar and Dr. **Kenneth Murray** for his summary about Dr. Reid Waters.

### SESSION V

Co-Chairs / Co-présidents: **Frank Lista**  
**Kenneth Wilson**

#### 0805 **CANADIAN EXPERT SERIES / SÉRIE DES EXPERTS CANADIENS**

Repair of the crooked nose (60)

*Réparation du nez dévié*

**B Neu**

Toronto, ON

#### 0815 **DISCUSSION**

0820 Immediate post-mastectomy reconstruction with prosthesis using the « Total Pedicle » mammoplasty incision.

*Reconstruction mammaire immédiate par prothèse avec l'incision de la mammoplastie à « Pédicule Total ».*

**R Moufarrège, V Lemaine**

Montréal, QC

0825 140 consecutive attempts at autologous tissue single stage breast cancer reconstruction (62)

*Reconstruction mammaire en un stage post cancer: 140 cas consécutifs par tissu autologue*

**C Bernier, S Haykal, N Guay**

Ottawa, ON

0830 100 consecutive attempts at delayed implant single stage breast cancer reconstruction (63)

*Reconstruction mammaire en un stage post cancer: 100 cas consécutifs par implants en un second temps*

**S Haykal, C Bernier, N Guay**

Ottawa, ON

0835 The efficacy of Artecoll injections for the augmentation of nipple projection in Breast reconstruction: A

prospective evaluation (64)

*Efficacité des injections d'Artecoll pour augmenter le projection des mamelons dans la reconstruction mammaire: une évaluation prospective*

**CM McCarthy, N Van Laeken, PA**

**Lennox, A Scott, AL Pusic**

New York, NY

#### 0840 **DISCUSSION**

0846 The BREAST-Q: Development of a new patient-reported outcome measure for breast surgery (65)

*Le BREAST-Q: développement d'un nouvel outil de mesure des résultats rapportés par les patients après chirurgie*

**A Pusic, A Klassen, S Cano, N Carr, P**

**Lennox, N Van Laeken, CL Kerrigan,**

**ED Collins, P Cordeiro**

New York, NY

0856 Limiting complications and complexity of the transverse upper gracilis flap in breast reconstruction (67)

*Diminution des complications et de de la complexité du lambeau du gracilis transverse supérieur dans la*

*reconstruction mammaire*

**E Buchel, T Hayakawa**

Winnipeg, MB

#### 0901 **DISCUSSION**

#### 0906 **CANADIAN EXPERT SERIES / SÉRIE DES EXPERTS CANADIENS**

One-stage BAM Mastopexy (68)

*Mastopexie BAM en un stage*

**BD Peterson**

Kelowna, BC

#### 0916 **DISCUSSION**

0921 The transverse cervical vessels as recipients in difficult head and neck microsurgical reconstructions (69)

*Les vaisseaux cervicaux transverses comme receveurs dans les reconstructions microchirurgicales difficiles tête et*

**MS Gilardino, T Dionisopoulos, B**

**Rhodes-Mizerny, L Lessard**

Montréal, QC

0926 The versatility of the anterolateral thigh (ALT) adipofascial flap (70)

*Versatilité du lambeau adipofascial antérolatéral*

**T Hayakawa, E Buchel**

Winnipeg, MB

0931 The plastic surgeon as a communicator (71)

*Le chirurgien plasticien comme communicateur*

**DH Lalonde**

Saint John, NB

#### 0936 **DISCUSSION**

0941 A comprehensive review of the management of extravasation injuries (72)

*Une revue détaillée du traitement des blessures par extravasation*

**P-O Gagnon, L Bergeron, P Harris, A**

**Nikolis**

Montréal, QC

0946 Use of Integra in place of a flap for complex wound coverage (73)

*Utilisation de l'Integra en remplacement des lambeaux pour la couverture des plaies complexes*

**J McMann, OG Reid, CD McKenzie, DA**

**Nickerson, JS Fish**

Calgary, AB

0951 Declaration of Expert Advisory Panel members' conflict of interest: A case study of the Health Canada Advisory Panel on Silicone Breast Implants. (74)

*Déclaration de conflits d'intérêts par les membres d'un panel d'avisers-experts: une étude de cas en rapport avec*

*le panel avisier de Santé-Canada sur les implants de gel de silicone*

**GM Rockwell**

Ottawa, ON

0956 **DISCUSSION**

1000 **PAUSE**

**SESSION VI**  
Co-Chairs / Co-présidents: **Thomas Hayakawa**  
**Andrea Pusic**

1030 **A. ROSS TILLEY LECTURE**  
**CONFÉRENCE A. ROSS TILLEY**  
**Introduction / Présentation : Steven Morris**  
A one year microsurgery fellowship at the Chang Gung Memorial Hospital, Taiwan (75)  
*Un fellowship d'une année en microchirurgie au Chang Gung Memorial Hospital, Taiwan*  
**C Schrag**  
Calgary, AB

1046 Power-assisted liposuction and the pull-through technique for the treatment of gynecomastia (76)  
*Traitement de la gynecomastie par technique de liposuction assistée et résection transcutanée*  
**F Lista, J Ahmad**  
Mississauga, ON

1051 Outpatient abdominal lipectomy without the use of drains (77)  
*Lipectomie abdominale sur base ambulatoire sans drains*  
**BR Neu**  
Toronto, ON

1056 The perfect umbilicus (78)  
*Le nombril parfait*  
**DK Rai**  
New Westminster, BC

1101 **DISCUSSION**

1106 **CANADIAN EXPERT SERIES/ SÉRIE DES EXPERTS CANADIENS**  
Details that make eyelid reconstruction easier and better in my hands (79)  
*Détails qui améliorent la reconstruction des paupières dans mes mains*  
**DH Lalonde**  
Saint John, NB

1116 **DISCUSSION**

1121 Reconstruction of acquired partial ear defects (80)  
*Reconstruction des pertes partielles de l'oreille*  
**L Kasrai, D Fisher**  
Toronto, ON

1126 Botox for chronic pain (81)  
*Le Botox pour les douleurs chroniques*  
**M Neumeister, C Chambers, L Premkumar, J Gillespie**  
Springfield, IL

1131 A randomized clinical trial comparing a new coaptive film device versus subcuticular suture closure of linear

*Essai clinique randomisé comparant une nouvelle pellicule coaptive avec les sutures subcuticulaires pour la fermeture des incisions linéaires*  
**CL Kerrigan, T Walsh**  
Lebanon, NH

1136 Lifestyle outcome study following body contouring in massive weight loss patients (83)  
*Résultats sur la qualité de vie après chirurgie de contour chez les patients après perte de poids massive*  
**C Heinrich, A Gabriel, D Miles, S Gupta**  
Loma Linda, CA

1141 **DISCUSSION**

1146 The impact of current venothromboembolism guidelines in a plastic surgery patient population (84)  
*Impact des guides courants de pratique sur la thromboembolie veineuse chez une population de patients de*  
**K Miszkiewicz, I Perreault, G Landes, PG Harris, JP Brutus, JS Sampalis, A Nikolis**  
Montréal, QC

1151 Effects of Agmatine and L-Arginine in ischemia reperfusion injury in skeletal muscle (85)  
*Effets de l'agmatine et de l'arginine L dans les blessures par ischémie/reperfusion au niveau du muscle strié*  
**G Allen, C Heinrich, J Chrisler, S Gupta**  
Loma Linda, CA

1156 Virtual classroom: Applications in the plastic surgery clerkship (86)  
*Classe virtuelle: applications aux stages de chirurgie plastique*  
**SP Salsman, L Publicover, SF Morris**  
Halifax, NS

1201 **DISCUSSION**

1206 A new technique of internal suture mastopexy (87)  
*Nouvelle technique de mastopexie par suture interne*  
**RC Mahabir, WA Zamboni**  
Las Vegas, NV

1211 How to stay out of trouble using the Style 410 Cohesive Gel Implant: What's the same, what's different? (88)  
*Comment éviter les complications avec les implants de gel de silicone Style 410: quelles sont les ressemblances, quelles sont les différences?*

**D Tobbia, J Semple, M Johnston**

Toronto, ON

Trigger finger at the wrist due to anomalous muscle insertion to flexor tendon in the carpal tunnel: a case report and review of the literature (P05)

*Doigt à ressort au poignet due à une anomalie d'insertion musculaire sur le tendon fléchisseur dans le canal carpien: cas clinique et revue de la littérature*

**K Sayegh, J. Bou-Merhi, PG Harris, J-P Brutus**

Montréal, QC

Friday, June 1<sup>st</sup> / *Vendredi, le 1er juin*  
Saturday, June 2<sup>nd</sup> / *Samedi, le 2 juin*

### RESIDENTS CORNER POSTER COMPETITION

Analysis of empiric antibiotic therapy for soft tissue wounds (RP10)

*Analyse de la thérapie empirique par antibiotique dans les plaies des tissus mous*

**R Shortt, A Thoma**  
Oakville, ON

Systematic review of treatment options for mediastinitis following cardiac surgery: comparing muscle flaps, vacuum-assisted closure and plating treatments (RP11)

*Revue systématique des options de traitement pour les médiastinites après chirurgie cardiaque: comparaison entre les lambeaux musculaires, la fermeture par pression négative assistée et les fixations par plaques*

**SKF Seal, A Dal Cin, F Farrohyar**  
Hamilton, ON

Cultured epithelial autograft on skin graft donor sites in acute burn surgery (RP12)

*Autogreffes épithéliales de culture sur les sites donneurs dans la chirurgie des brûlés en phase aigue*

**GE Salib, S Nicolaidis, G Beaugard, L Germain, F Auger, A Armour**  
Montréal, QC

Comparison of titanium vs. absorbable plating systems in the treatment of zygoma fractures: Decision board development for cost benefit analysis (RP13)

*Comparaison des plaques résorbables ou en titane dans le traitement des fractures du zygoma: analyse coût-bénéfice pour les conseils d'administration.*

**N Strumas, A Kattan**  
Ancaster, ON

Bear maulings treated in Calgary, Alberta: Their management and sequelae (RP14)

*Mutilations par les ours à Calgary, Alberta: traitement et séquelles*

**RC Frank, RC Mahabir, E Magi, R Lindsay, W de Haas**  
Calgary, AB

The surgical management of granulomatous mastitis including reconstructive options (RP15)

*Traitement chirurgical des mastites granulomateuses en incluant les options de reconstruction*

**FM Yau, SA Macadam, U Kuusk, N Van Laeken**  
Vancouver, BC

Flexor tendon reconstruction without donor tendon graft (RP16)

*Reconstruction des tendons fléchisseurs sans greffe de tendon donneur*

**D Mok, PG Harris, D Guberman, A Nikolis**  
Montréal, QC

### GENERAL SESSION POSTERS

Desmoid tumors of the pediatric mandible: Case report and review (P06)

*Les tumeurs desmoides dans la mandibule pédiatrique: description d'un cas clinique et revue*

**H Sinno, T Zadeh**  
Montreal, QC

Outcome of tongue-lip adhesion in treatment of airway obstruction in patients with congenital craniofacial

*Résultats des adhérences langue-lèvre dans l'obstruction des voies respiratoires chez les patients avec anomalies crâniocfaciales congénitales*

**M Alkahtani, D Young, S Hundert, J Olson, G Wilkes**

Edmonton, AB

Neurocutaneous melanosis in association with bulky tumors of neurally differentiated tissue: A rare indication for early intervention (P08)

*Mélanose neurocutanée en association avec des tumeurs de tissu à différenciation neurale: une rare indication d'intervention rapide*

**JE Chuback, LL Ross**  
Winnipeg, MB

Case Report: Recell in the treatment hypertrophic hypopigmented scar (P09)

*Cas clinique: Recell dans le traitement des cicatrices hypertrophiques hypopigmentées*

**A Gelidan**

Winnipeg, MB

Knowledge and perception of plastic surgery compared to other surgical specialties (P10)

*Connaissance et perception de la chirurgie plastique en comparaison avec les autres spécialités chirurgicales.*

**R Ahmadzadeh, SF Morris**

Halifax, NS

Deep inferior epigastric perforator (DIEP) flap: alternative uses. (P11)

*Lambeau perforant de l'artère épigastrique inférieure profonde (DIEP): utilisations alternatives*

**CD Goldie**

Calgary, AB

## Présentation du docteur Martin LeBlanc primée à Puerto-Rico

Le 12 janvier 2007 à Puerto-Rico, le docteur **Martin LeBlanc** de l'Université Dalhousie a reçu le prix d'excellence octroyé à la meilleure présentation en chirurgie des nerfs lors de la réunion de l'Association américaine de chirurgie de la main. Son étude s'intitule *Une analyse détaillée du coût et de l'efficacité de la chirurgie du canal carpien en bloc opératoire vs en ambulatoire.*

La recherche à la base de cette étude a été effectuée à Saint-Jean, Nouveau-Brunswick avec Jan Lalonde et le docteur **Don Lalonde.**

Le 13 janvier 2007, pour avoir obtenu ce prix, le docteur LeBlanc a été invité à faire sa présentation une deuxième fois à Puerto-Rico à la Société américaine de chirurgie des nerfs périphériques. La présentation a gagné ensuite le prix de la meilleure présentation par un résident à la réunion de l'Association américaine de chirurgie de la main.

Félicitations au docteur LeBlanc!
