

Plastic Surgeon NIAGARA HEALTH

The Department of Surgery, Division of Plastic and Reconstructive Surgery at Niagara Health seeks a highly skilled and motivated surgeon with a track record for providing compassionate and efficient care to join the Department.

Niagara Health is a regional healthcare provider with multiple sites and a growing network of community-based and virtual services. We believe that every person in our region deserves to live every day of their life in the best health possible. As a community-based academic centre, our focus on teaching and learning, research, innovation and partnership propel us to continually improve care and make a difference in people’s lives.

Our team is made up of more than 7,300 employees, physicians and volunteers who we count on to deliver Extraordinary Caring. Every Person. Every Time. Our Accreditation with Exemplary Standing is a clear demonstration of the team’s commitment to the highest safety and quality standards.

We provide a full range of acute care hospital services to the 450,000 residents across the Niagara region, and we are one of the few hospitals in Ontario that own and operate a long-term care facility.

Creating a healthy community is a collaborative effort. The courage and hope demonstrated by so many during the COVID-19 pandemic inspire us to continue to work with community partners to improve the health and well-being of our region

The transformation of healthcare service delivery across Niagara continues with planning underway to build an additional ultramodern hospital in South Niagara to provide accessible and quality healthcare to residents of the Southern Region. Niagara Health is positioned, by virtue of its geography and regionally distributed resources, to exemplify the best of regional capacity with local service delivery. Strong academic partnerships are a priority for the NH as the organization builds on a robust relationship with McMaster University’s Michael G. DeGroote School of Medicine.

Current Group	<ul style="list-style-type: none"> • The successful applicant will join a group of 4 (with new recruit) • Provide full coverage of general plastic surgery services Operative interest in and experience general plastic surgery
